

FIGHT THE WAR - NOW!

YOU can directly, and personally help end the war by joining a nationwide economic boycott. If 15 million high school and college students stop buying non-essential products, the economy would receive such a jolt that the administration would be forced into action. The silent majority can ignore demonstrators, but the administration and the economy cannot avoid the real drops in interest rates, the stock markets, and ~~the~~ personal consumption. What goods can be boycotted? Students throughout the nation are abstaining from:

records
tapes
shoes
clothing
tape recorders
record players
radios
Coca-Cola products
Coke
Fresca
Sprite
Tab
Hi-C
Minute Maid
Snow Crop

Phillip Morris products
Marlboro
Parliament
Virginia Slime
Alpine
Paxton
Personna
Clark gum
Benson and Hedges
Standard Oil products
General Electric
General Motors
any other non-essential you
are willing to sacrifice

Time for symbols is over. Action must be taken now. Economics is a powerful weapon. It is your decision and personal sacrifice that will make the difference.
